FEATURED DESIGN PROJECTS & PRODUCTION PRACTICE

ASHLEE — Brand Identity, Packaging, Web & Marketing Design Self-Directed Project

- Developed a complete visual identity system for ASHLEE Unisex Salon & Spa, including logo variations, typography hierarchy, color palette, and brand applications.
- Created realistic cosmetic packaging and product mockups using Photoshop and Illustrator to demonstrate practical brand applications.
- Designed and developed a responsive landing page using Figma, HTML5, CSS3, and JavaScript, with a clean and modern UI.
- Created promotional social media stories, carousel graphics, beauty-tip creatives, and editorial-style banners for digital marketing applications.
- Produced print-ready artwork for event banners and signage using CMYK color mode, 300 DPI standards, bleed, trim, and safe-margin specifications.
- Performed basic preflight checks and prepared production-ready artwork using CorelDRAW, Illustrator, and Photoshop.

Personal Portfolio Website — Design & Development Live Deployment

- Designed and developed a responsive personal portfolio website showcasing brand identity, print, and web design projects.
- Implemented interactive UI elements and responsive layouts using HTML5, CSS3, and JavaScript.
- Managed version control and live deployment using GitHub Pages.
